PHOENIX, AZ 85007

AVAILABLE OUTSIDE CENTRAL MARICOPA COUNTY

ARIZONA MINING AND MINERAL MUSEUM
STATE-WIDE
CLASSROOM OUTREACH PROGRAM
Grades K—8

Arizona is such a large state, many classes cannot travel the miles to visit our museum in Phoenix to take advantage of our educational presentations which are based on the Arizona Science Standards and Arizona Core Curriculum.

Therefore, the Arizona Mining and Mineral Museum would like to bring its
Popular State-Wide Outreach Classroom Series
to your classroom ! *Costs are: \$35 per classroom plus mileage.*
Limited funding AVAILABLE THROUGH A GRANT FROM ARIZONA PUBLIC
SERVICE. Go to WWW.ADMMR.STATE.AZ.US for more information about
funding opportunities.

These grade-appropriate fast-paced, classroom programs are presented to students studying our state's geology and mineral resources. The presentations are based on Arizona Core Curriculum and Arizona Science Standards. Have your students discover some surprising practical uses of rocks and minerals, do some hands-on activities, and watch a short video. Presentations are made to no more than two classes at a time. Up to three 40-50 minute-long presentations per school visit can be scheduled.

Each participating classroom teacher will receive a free
Identification Kit of Arizona Rocks and Minerals
which has been assembled by volunteers at the Museum
under the supervision of Curator Susan Celestian.

Treasure Bags can be ordered in advance for each student (\$2⁰⁰ ea) and will be delivered on the day of the presentation. The bags can be purchased by the student, the PTO or equivalent, or the school/district. Each drawstring Treasure Bag contains three rock and/or mineral specimens, a tumbled mystery stone, a post card of the museum, and a printed bookmark showing the museum exterior. A Bibliography of books and kits will be mailed with confirmation and purchased items can be delivered the day of the program.

Have Rocks ~ Will Travel !
